

Solutions By Design II, LLC (SBD) has an extensive history of delivering critical IT and mission support services to help the DoD enhance the safety and security of our nation. We leverage innovative IT solutions and domain expertise to support critical operations as well as deliver systems and services that improve mission performance. Our subject matter and technology experts have the experience, perspective, and know-how to support the most complex programs— with agile, adaptive thinking, proven practices and methodologies, and technology solutions that are both cost-effective and add real value without sacrificing innovation.

Defense Contract Management Agency

DCMA's MOCAS system currently processes over \$220 billion per year in contract invoice payments, with a volume of over 1 million invoices. SBD is helping DCMA modernize this legacy system to improve tracking, reporting, and managing each request in the DCMA MOCAS repository.

Services include:

- Testing / IV&V
- Test documentation
- Training: CBT, WBT, ILT
- UI/UX Design & Development
- Ticket resolution: Tier I, II, III

DevOps, Agile, Oracle Jdeveloper, Oracle 11g, SQL, PL/SQL, MS SQL Server, Java/J2EE, K2 Blackpearl, Adobe ColdFusion, C/C++, Ruby/Rails, JAX-WS, SAAJ, SAX, SOAP, UNIX shell script, Excel macro, VM TcServer, MS SharePoint, HP trim, Load Runner, Informatica ETL, IBM Cognos BI, ChangeGear, Microsoft Office Suite

Defense Information System Agency

DISA acts as a support organization to its national security customers. Specifically, DISA provides networking support via Global Information Grid and Defense Information Systems Network (DISN).

Services include:

- Project planning
- Provisioning
- Circuit design
- Implementation management
- Systems Engineering

Drupal 7 Content Management System, HTML, CSS, Hypertext Processor (PHP) Engine, JavaScript, ApacheServer, Internet Information Services (IIS), MySQL Database Administration

Defense Intelligence Agency

DIA produces, analyzes, and disseminates military intelligence information to combat and non-combat military missions. SBD provides 24x7 support to DIA's Enterprise Service Desk (ESD).

Services include:

- Enterprise data, voice, video, and satellite communication services
- Cybersecurity
- Information Assurance
- Support across JWICS, SIPRnet, NIPRnet

Active Directory, Microsoft Office Suite

Defense Logistics Agency

DLA provides worldwide logistics support for the missions of the Military Departments and the Unified Combatant Commands under conditions of peace and war. DLA users depend on SBD's support to collaborate, analyze information, and collect logistics data.

Services include:

- Infrastructure support
- Systems Administration
- Customer support
- Data management
- Telecommunication services
- Information Security (HBSS)
- LAN/WAN Management
- VoIP
- Cabling

Cisco Prime Provisioning, PC SAS, Oracle Recovery Manager (RMAN), Oracle 11g, SQL, PL/SQL, MS Windows, UNIX, Red Hat Linux, Microsoft Office Suite

“SBD worked diligently with DCMA on staffing as priorities shifted. This agile staffing ensured DCMA always had the proper resources. The team's organizational structure resulted in superior task management and execution.”

Solutions By Design II, LLC (SBD) is a management consulting and technology services company serving clients domestically and abroad. For over 30 years, we have delivered technically innovative, reliable, and cost-effective solutions, services, and products, on-time and on-budget. We understand the challenges facing government agencies and help them transform to implement faster, more reliable quality systems. With more than 35 Federal contracts, SBD brings a demonstrated history of commitment to our customers.

Business Process Management

Using Agile development methodology, we deliver analysis, design, prototyping and the day-to-day maintenance and enhancement of your business applications, helping reduce costs and ensure faster execution of programs, projects and other initiatives.

Application Engineering & Maintenance

Our subject matter and technology experts, engineers, analysts and other professionals provide mission support to improve efficiency and enable you to achieve your strategic objective.

Infrastructure Management

We provide infrastructure requirements, design, analysis support as well as network planning and metrics that support major system-wide projects including VTC, IPV6, cybersecurity, secure data center operations, network management, security, IV&V and information assurance services.

The Innovation Center

The Innovation Center is a research and development environment aligned with the two leading Cloud Services providers: Microsoft Azure and Amazon Web Services (AWS). SBD ensures easy access to mainstream Operating Systems, Software Development Ecosystems, and Enterprise tools. This allows our client to prototype solutions faster and demo tools without expense.

Qualifications and Certifications
