Solutions By Design II, LLC (SBD) has an extensive history of delivering critical IT and mission support services to help the DoD enhance the safety and security of our nation. We leverage innovative IT solutions and domain expertise to support critical operations as well as deliver systems and services that improve mission performance. Our subject matter and technology experts have the experience, perspective, and know-how to support the most complex programs—with agile, adaptive thinking, proven practices and methodologies, and technology solutions that are both cost-effective and add real value without sacrificing innovation.

DCMA’s MOCAS system currently processes over $220 billion per year in contract invoice payments, with a volume of over 1 million invoices. SBD is helping DCMA modernize this legacy system to improve tracking, reporting, and managing each request in the DCMA MOCAS repository.

DisA acts as a support organization to its national security customers. Specifically, DISA provides networking support via Global Information Grid and Defense Information Systems Network (DISN).

DIA produces, analyzes, and disseminates military intelligence information to combat and non-combat military missions. SBD provides 24x7 support to DIA’s Enterprise Service Desk (ESD).

DLA provides worldwide logistics support for the missions of the Military Departments and the Unified Combatant Commands under conditions of peace and war. DLA users depend on SBD’s support to collaborate, analyze information, and collect logistics data.

SBD worked diligently with DCMA on staffing as priorities shifted. This agile staffing ensured DCMA always had the proper resources. The team’s organizational structure resulted in superior task management and execution.

**Services include:**
- Testing / IV&V
- Test documentation
- Training: CBT, WBT, ILT
- UI/UX Design & Development
- Ticket resolution: Tier I, II, III

DevOps, Agile, Oracle Jdeveloper, Oracle 11g, SQL, PL/SQL, MS SQL Server, Java/J2EE, K2 Blackpearl, Adobe ColdFusion, C/C++, Ruby/Rails, JAX-WS, SAAJ, SAX, SOAP, UNIX shell script, Excel macro, VM TcServer, MS SharePoint, HP trim, Load Runner, Informatica ETL, IBM Cognos BI, ChangeGear, Microsoft Office Suite

**Services include:**
- Project planning
- Provisioning
- Circuit design
- Implementation management
- Systems Engineering

Drupal 7 Content Management System, HTML, CSS, Hypertext Processor (PHP) Engine, JavaScript, ApacheServer, Internet Information Services (IIS), MySQL Database Administration

**Active Directory, Microsoft Office Suite**

**Services include:**
- Enterprise data, voice, video, and satellite communication services
- Cybersecurity
- Information Assurance
- Support across JWICS, SIPRnet, NIPRnet

**Services include:**
- Infrastructure support
- Systems Administration
- Customer support
- Data management
- Telecommunication services
- Information Security (HBSS)
- LAN/WAN Management
- VoIP
- Cabling

Cisco Prime Provisioning, PC SAS, Oracle Recovery Manager (RMAN), Oracle 11g, SQL, PL/SQL, MS Windows, UNIX, Red Hat Linux, Microsoft Office Suite
Using Agile development methodology, we deliver analysis, design, prototyping and the day-to-day maintenance and enhancement of your business applications, helping reduce costs and ensure faster execution of programs, projects and other initiatives.

Our subject matter and technology experts, engineers, analysts and other professionals provide mission support to improve efficiency and enable you to achieve your strategic objective.

We provide infrastructure requirements, design, analysis support as well as network planning and metrics that support major system-wide projects including VTC, IPV6, cybersecurity, secure data center operations, network management, security, IV&V and information assurance services.

The Innovation Center is a research and development environment aligned with the two leading Cloud Services providers: Microsoft Azure and Amazon Web Services (AWS). SBD ensures easy access to mainstream Operating Systems, Software Development Ecosystems, and Enterprise tools. This allows our client to prototype solutions faster and demo tools without expense.

Qualifications and Certifications
• CMMI® DEV V1.3 ML3
• Economically Disadvantaged Woman Owned Business
• Prime Contractor on 93% of contracts

Contract Vehicles
• GSA FSS 70 GS-35F-4717G
• GSA FSS 70 GS-35F-242GA
• GSA PSS GS-00F-250DA
• GSA Alliant SB GS-06F-0656Z
• GSA 8(a) STARS II GS-06F-0940Z
• GSA 8(a) STARS II GS-06F-1232Z
• GSA Health IT SIN and CMS SPARC
• FAA eFast DTFAWA11A-00082
• DCMA MOCAS SS121A-16-D-0005
